

PLEASE CALL TO PROTECT
MY CHOICE
For Where I Work!

April 16, 2019
National Day of Choice

Within the past few years new laws and regulations have taken away my choices of where I want to work, receive training and support services, even where I live.

Please contact your members of Congress today and especially again on April 16, 2019.

The National Day for Choice, organized all across the USA.

Ask them to VOTE No on Raise the Wage Act of 2019.

They need to hear from self-advocates, families, and communities about the need to protect the guarantee of person-centered choices for all people with a disability.
